Width	4'11"	1.49m
Height	2'5"	6.4cm
Draft	4.2"	10.7
Weight	370 lb	167.8kg

QUICKCOVER™

The SunPort2™ enables a hassle-free docking and launching experience, and the optional QuickCover™ makes covering your craft easy and quick, completing the ultimate PWC storage system. The front of the cover is attached to the bow stop, and the rear of the cover simply clips on to the rear corners of the SunPort2. A net on the bow stop stores the cover when not in use.

SUNPORT2™ MOUNTING OPTIONS

The Slide mount is designed for non-floating docks that have fluctuation of water depth. Corrosion resistant aluminum pipe brackets are stylish and durable.

The optional multi-port connector attaches multiple SunPort2™ together.

The Sunstream Duraflexx™ system is a set of rubber mounts that attach the SunPort2™ to a floating dock. The elastomeric design is very durable and reduces stresses on the port and dock.
